BOOSTING PROCESSOR PERFORMANCE

More and better choices

- Intel – new architecture, more choices
- AMD continuing to pull away from Intel on performance and battery life
- Need for Dual RAM modules...!

DDR5 PROVIDES PERFORMANCE & BATTERY LIFE

Premium Leading Memory Transition

- 40% higher data bandwidth
- 30+ min battery life improvement

CONNECTIVITY WITH WIFI 6E AND 5G

Enhanced Wireless Connectivity

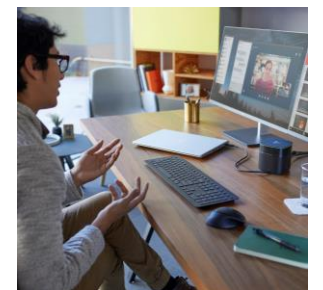

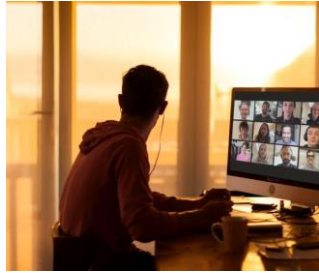

- Wi-Fi 6e
 - New 6GHz band offers more bandwidth
- 5G expansion

5MP/8MP CAMERAS FOR COLLABORATION

Innovative collaboration experiences

CONFERENCING EXPERIENCES WILL BE A FOCAL POINT FOR 2022

EXPERIENCE

You can collaborate in any lighting situation and present a clear image

You look/sound clear and can focus without worrying about distracting others (or being distracted)

You can move around naturally while you collaborate & stay engaged

Your PC can anticipate what you need to do through the day and auto-adjust settings

You can professionally present and demo to your stakeholders

FEARLESS
Conferencing: you always know where/how your audio & video are performing

ENABLING SOLUTIONS

- Wide Dynamic Range, Low light enhancement

- Super resolution
- Upgraded camera HW
 - Background blur, beautification, gaze correction

- Auto-framing
 - Wide FOV
 - 360 edge mics
- Dynamic voice leveling

- eAI enabled shoulder surfing detection,
